

## Did It Yourself? Get Your Project into *Make*: Magazine

*Make* is a do-it-yourself technology magazine written by makers. Take a peek at [makezine.com](http://makezine.com) for lots of great project ideas.

We'd love to hear your ideas for projects and articles for MAKE. If you want to write for us, you have to tell the story behind your project. Have you made something cool? Do you want to show other people how to make it? We want to hear about things you've made that will inspire other people. (Don't tell us about things you are just thinking about making. Make it first and then tell us!)

Explain your project as if you're telling a friend how you did something. Write for a smart person who doesn't necessarily know what you know. Imagine the questions they'd ask about your project. Tell them everything they need to know to recreate what you made. Describe difficulties you encountered, and suggest workarounds. Draw pictures or take photos of each step along the way.

**Your Bio** *(a one-sentence description of who you are)*

**Project Title** *(a one-sentence description of your idea)*

**Have you built this project?**    *yes*    *no*

**Have you taken good quality digital photos of each step?**    *yes*    *no*

**Description.** Now, describe your project in a paragraph or two. Use the back side of your worksheet to draft your proposal. When you're done, you can fill out our form online at [makezine.com/cs/user/create/idea](http://makezine.com/cs/user/create/idea) and we'll let you know if we can publish your project.
